

ELS Tree Light F44

The ELS Tree Light F44 is a free standing decorative lighting element, using ELS Litebits to create colour changing mood lighting.

ELS Tree Light F44 automatically cycles through sequences, from gentle transformation of colours to playful sequences that mirror the changing colours in nature over the seasons. The tree light comes with 16 preloaded sequences that can be set using a button located in the base of the lamp.

The ELS Tree Light is available in various models; for the wall, ceiling and floor.
