

# High Power Flood Light

The High Power Flood Light is perfect for giving that intense atmospheric wash of colour on your selected surface.

The high power LED Flood Light is powered by 36 1W LEDs, providing a very narrow beam angle, further distance, brighter colour and an evenly diffused illumination.

The colour effect is subtle, yet undoubtedly effective and attention grabbing. Each ultra bright red, green and blue LED has a 256 color depth, providing you with virtually limitless colour selection. The LED Flood Lights are easily installed with the assistance of mounting gears and rotating equipment, and can be controlled using a DMX controller.

## Suggested Applications

- Ceilings
- Outdoor surfaces, such as fences or garden features
